

By successfully passing the NAPPS certification process **Magenta Technology** has proven its commitment to the following principles –

### **Trust**

Magenta Technology has voluntarily signed to the NAPPS Code of Practice. The Code is designed to protect you at every stage of your relationship with Magenta Technology.

### **Ethical business practice**

You will always be treated professionally and with respect. Magenta Technology has built its reputation and business relationships on openness, honesty and trust.

### **Integrity**

Regardless of your size or time as a customer you are assured of industry leading customer service & support throughout your relationship with Magenta Technology.

### **Quality standards**

As a member of NAPPS Magenta Technology is an industry leading driver of operating standards. They are committed to the continuous development of their customer facing processes, and placing you at the centre of their operations.

### **Transparency**

To have achieved membership Magenta Technology opened their business to a rigorous evaluation process which checks every level of their customer service & support processes.
